

NEW

Instore display solutions now available from Artko

W: 263.6cm

W: 122cm

Introducing a double sided display unit which will both display and store your Artko products.

It's never been easier to display the latest range of Artko products in your store with our bespoke free standing island system.

Available in a stylish white finish with Artko branding this double sided display solution offers all the convenience and flexibility of the slatwall system but as it is free standing it eliminates the need for any wall fixings.

The display system comes flat packed with full assembly instructions. Your Artko representative will assist you with building the unit and displaying the stock. The unit will be provided free on a loan basis with an initial stock order value of £2500, under the agreement that it is for the sole display of Artko products.

Standing at 220cm x 263.6cm (86.5" x 103.5") there is enough space to display the latest Artko best sellers. If more display area is needed a 12 foot unit is available at an initial stock order value of £3500.

This is the solution to displaying and stocking your pictures for maximum results.

Please ask your Artko representative for details or call 0161 343 2007 www.artko.co.uk
